Battery Trade-In

Continued

After several years, even our batteries will fade out and it will be time for a new one. **But what to do with the old one?** Besides problematic substances, batteries also contain important raw materials. Lithium is the key raw material for eco-friendly electro mobility.

Therefore, old batteries may not be disposed of with regular household waste but at a designated collection point provided at retailers or local authorities.

Or:
Send in your old Lupine battery with a capacity of at least 3Ah and additionally enjoy a **discount** when purchasing a new battery.

Here is how it works:

1. Send your old battery*(without bag/bottle) **and this card to Lupine.** * This offer is not valid for batteries below 3Ah.

2. Check the model you want.

11.2 Ah SmartCore battery Art.No 911

5.6 Ah SmartCore battery Art.No 906

10.0 Ah battery Art.No 982

7.5 Ah battery Art.No 960

Prices and discount are provided as a guide only and may vary due to taxes and different terms of conditions in your country. Please get in touch with your local distributor for further information. Prices are subject to change without notice and you are advised to check for the latest price & availability before purchasing. This offer can be withdrawn without notice.

*Please note: If you live in Australia, Belgium, Croatia, Denmark, Luxembourg, Norway, Portugal, Spain, Slovenia, The Netherlands, South Korea, United Kingdom, USA, get in touch with your local distributor and do not directly ship back your battery to Lupine.

3. Enter your e-mail address below.

After we receive your card, we will send you your personal promotion code. Use this code to receive the discount when ordering your battery from our online shop.

4. After you receive your code, order your new battery at www.lupine.de.

Send card and battery to the following address:

Lupine Lighting Systems GmbH
Winnberger Weg 11
92318 Neumarkt
Germany
